

MOTOR VEHICLE ACCIDENT CLAIMS

Kemberton's experienced team of attorneys and paralegals turns clients' non-collectible dollars into revenue.

OUR PROCESS

Kemberton's in-house team of experts has a four-step, contingency-based process to ensure that our clients are paid for motor vehicle accident claims. These steps include:

1. Focus initial efforts on payment from first-party payers and monitor 837 feeds from providers and clearinghouse partners.

These activities accelerate Kemberton's ability to submit claims and turn around cash for clients.

2. Coordinate health insurance benefits in a timely manner—and within CMS guidelines.

Timely management of clients' contractual obligations with health insurance companies accelerates payment on claims.

3. Follow up with third-party insurance and attorneys and file appropriate liens.

Expedited payment resolution for clients is Kemberton's primary goal, and this step ensures that our client's bill is included in the settlement.

4. Report to client's specifications; provide access to Kemberton's system.

Customized reports and access to Kemberton's system create transparency and enable clients to measure Kemberton's performance and success.

OUR STATS

- ▶ **2X INCREASE IN NUMBER OF CLAIMS IDENTIFIED**
- ▶ **2X INCREASE IN CLAIMS PAID BY NON-HEALTH PAYERS**
- ▶ **2 TO 3X INCREASE IN PERCENTAGE OF GROSS CHARGES PAID**
