

OVERVIEW

KEMBERTON is a proven leader in tackling motor vehicle, workers' compensation and other complex claims challenges. We partner with provider organizations to collect the revenue they once considered uncollectible.

OUR TEAMS

MOTOR VEHICLE ACCIDENT CLAIMS

Our contingency-based motor vehicle claims collections model allows clients to achieve significant revenue increases, while maximizing the flexibility of their internal resources. As advocates for both the patient and the hospital, Kemberton's experienced team of lawyers, paralegals, and associates are dedicated to our proven method.

WORKERS' COMPENSTATION CLAIMS

An asset to clients' revenue cycle, our contingency-based resolution model caters to the complexities and time-consuming nature of workers' compensation claims collections. The combination of Kemberton's experienced staff and our proprietary claims processing software delivers higher revenue to clients on a more timely basis.

COMPLEX CLAIMS DENIALS

Our experienced team of attorneys, paralegals, and denial analysts turn clients' non-collectable dollars into revenue. Clients can leverage Kemberton's years of experience and vast network of payer contacts to overturn previously unsuccessful and written off insurance denials, lower A/R days, and maximize reimbursement.
